**About Eventide:**

Eventide was founded in 1971 in New York City and is a leading developer and manufacturer of digital audio processing products for recording, broadcast, and live performance. Eventide invented the H910, the first digital effects processor in 1974, and introduced the H3000 Ultra-Harmonizer effects processor in 1986. Since then their legendary studio processors, stompboxes and plug-ins have been heard on countless hit records.
